

# SCHOCK

HANDMADE IN GERMANY

SINKS

An abstract geometric composition featuring several overlapping planes in shades of orange, green, blue, and purple. Three thin rods are positioned across the scene: a yellow rod running diagonally from the top left towards the center, a blue rod running horizontally across the middle, and a red rod running vertically on the right side. The rods appear to be resting on or passing through the planes, creating a sense of depth and perspective.

# COLOUR YOUR YOUR R LIFE

Dear customers,

This year we have once again conjured up a faraway world, playful and edgy, around all our products for you.

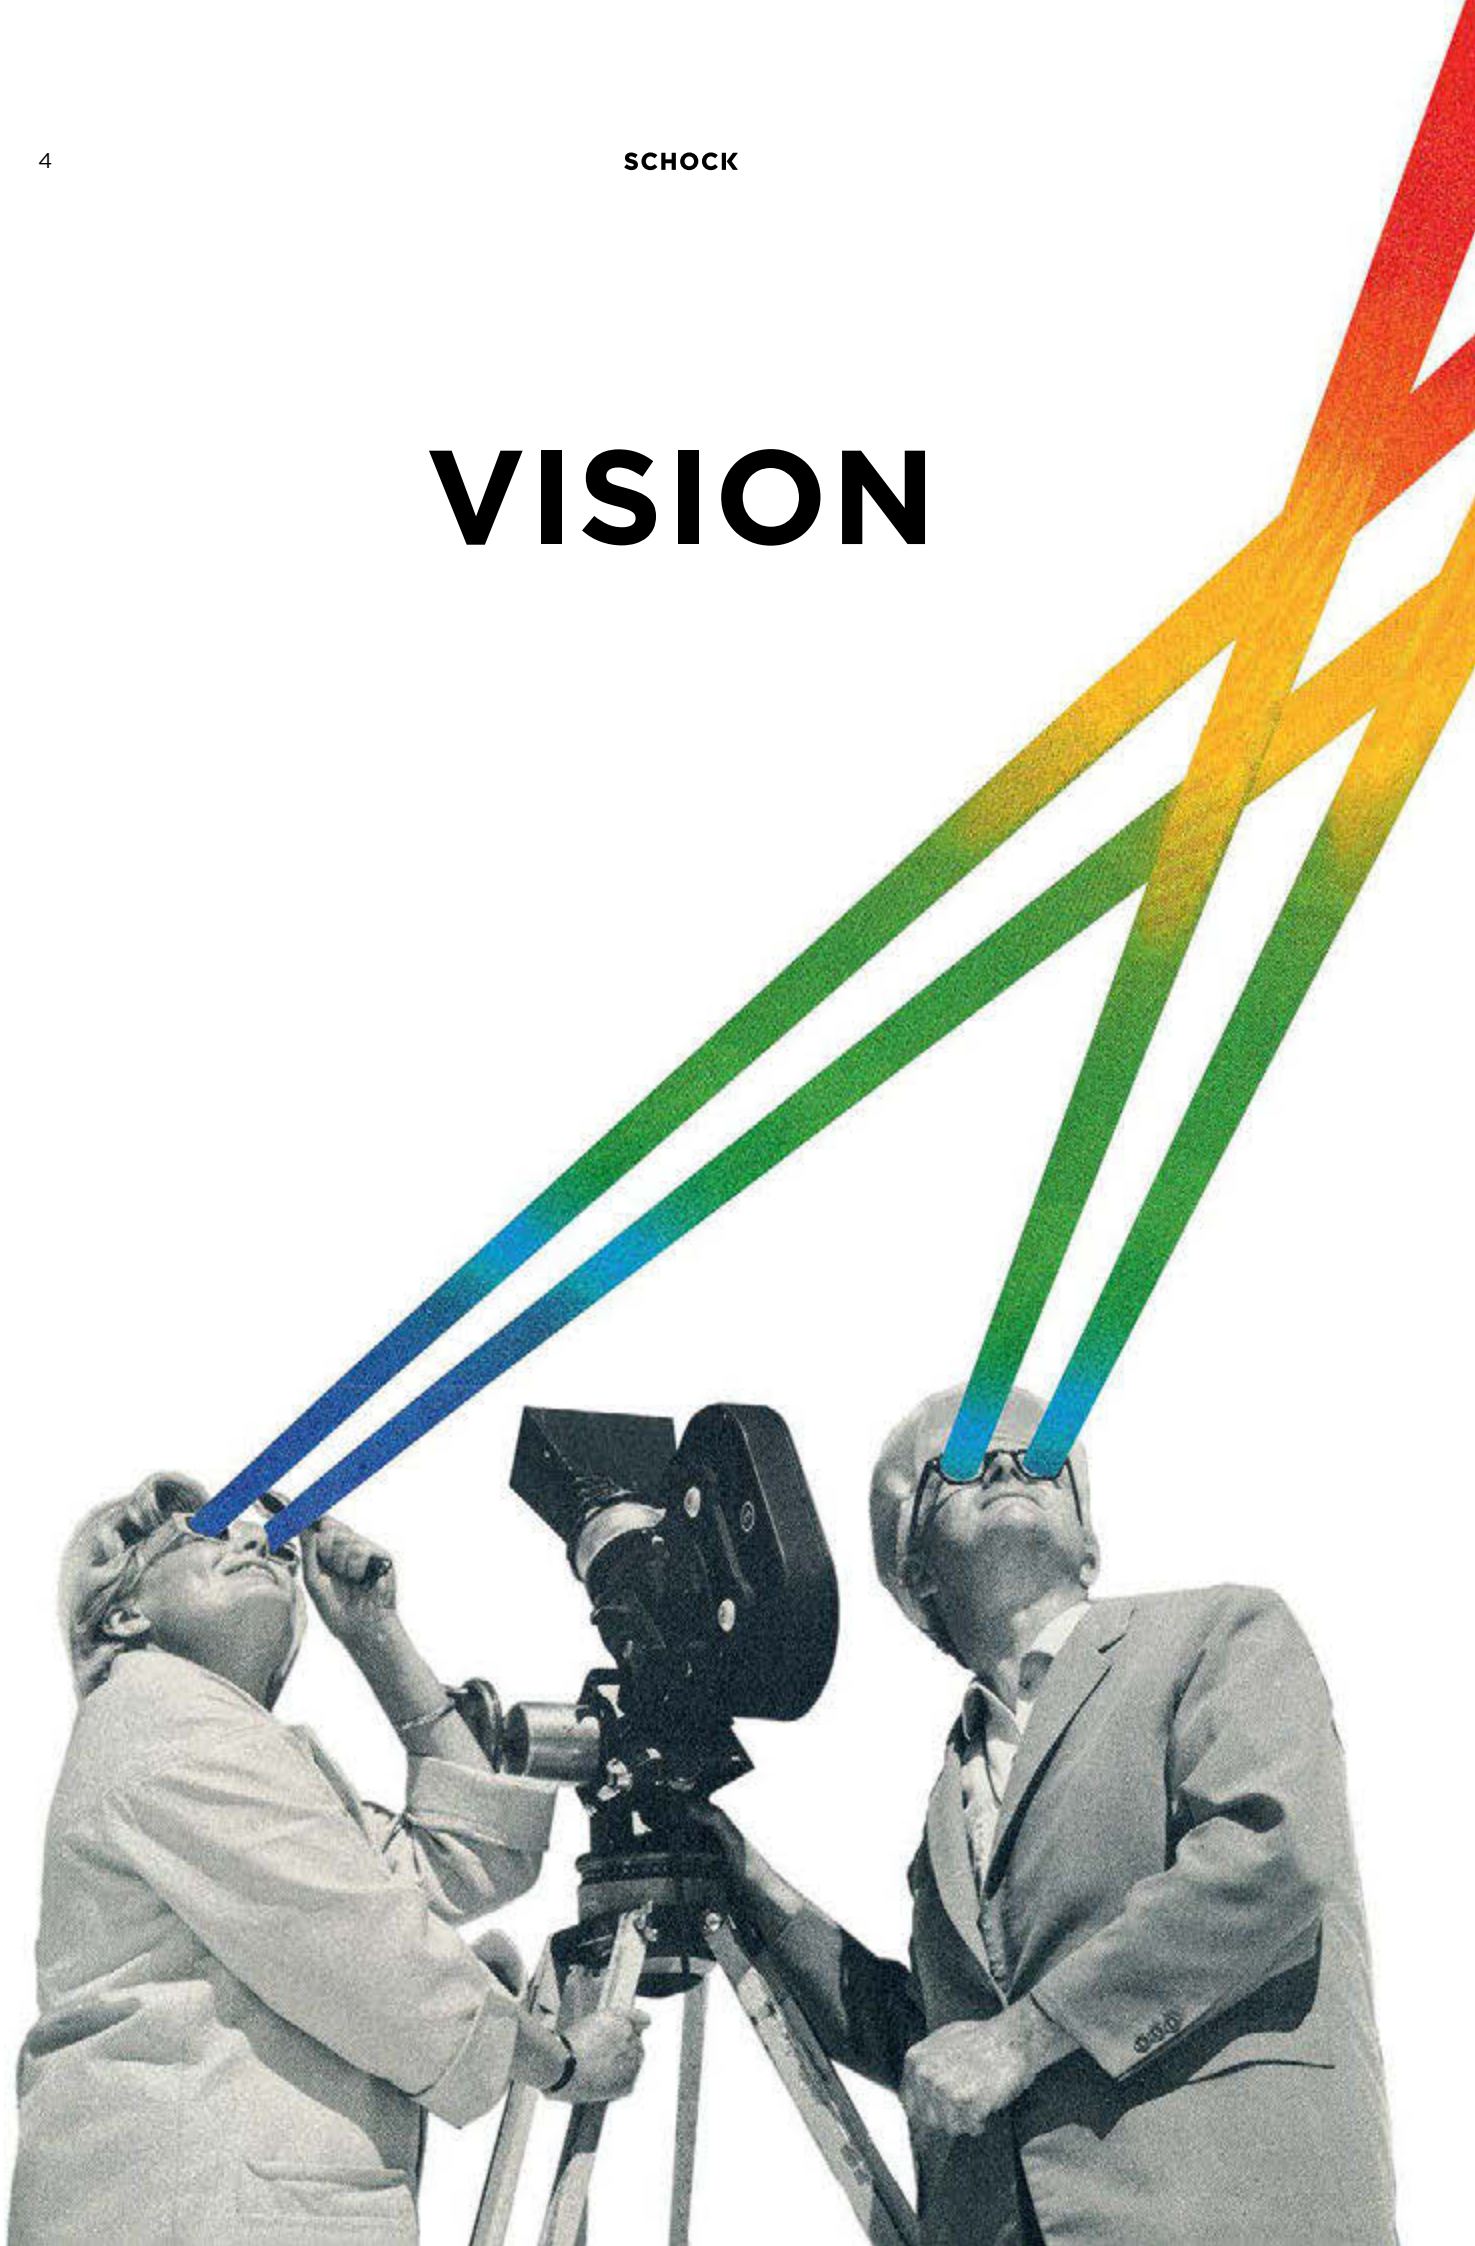

But we are even more pleased to have succeeded in making our best material even better. CRISTADUR® EXTREME is now even more gleaming, even easier to clean and even more hard-wearing.

As you leaf through these pages, you will discover many more examples of our unbroken technical curiosity and our desire for innovation, such as CRISTALITE®.

Marc Werkmeister & Ralf Boberg  
Management team

# VISION

**ABOUT US** We invented the granite sink in 1979. And we've been constantly reinventing it and ourselves ever since. The result is more than 200 sink models in as many as 40 colours. We have more than 90 patents and 80% of sinks made around the world are produced on the basis of our methods. But there's one thing we kept to ourselves: the special combination of our products themselves - handmade in Germany - and our international trend scouting activities. We don't follow a strategy, we follow our intuition. And what that means for us in figures is: 50% growth, 25% global market share, 100% pioneering spirit. We know that the road ahead of us is long: It will continue to take us out of our comfort zone and thrust us headlong into the world of colour. With new and unseen ideas and good old, tried-and-trusted craftsmanship.

● Exhibition at area30, Löhne

### **SCHOCK INVENTED THE GRANITE SINK**

Even after more than 35 years, 80% of all granite sinks made in the world today are manufactured using SCHOCK methods - that's 2 million granite sinks a year.

### **SCHOCK PREMIUM DESIGN**

SCHOCK's material technology enables the realisation of exceptional designs. Premium sinks from SCHOCK have won numerous design awards over the years.

### **SCHOCK MATERIAL TECHNOLOGY**

Since the invention of the granite sink, SCHOCK materials have been continually refined and set new standards. This innovative spirit is reflected in more than 90 patents.

### **SCHOCK MATERIAL - HARDER THAN GRANITE**

The special SCHOCK production method makes CRISTALITE<sup>+</sup>® and CRISTADUR® ensure optimum safety when handling fresh food.

### **PROHYGIENIC21 - THE HYGIENE STANDARD**

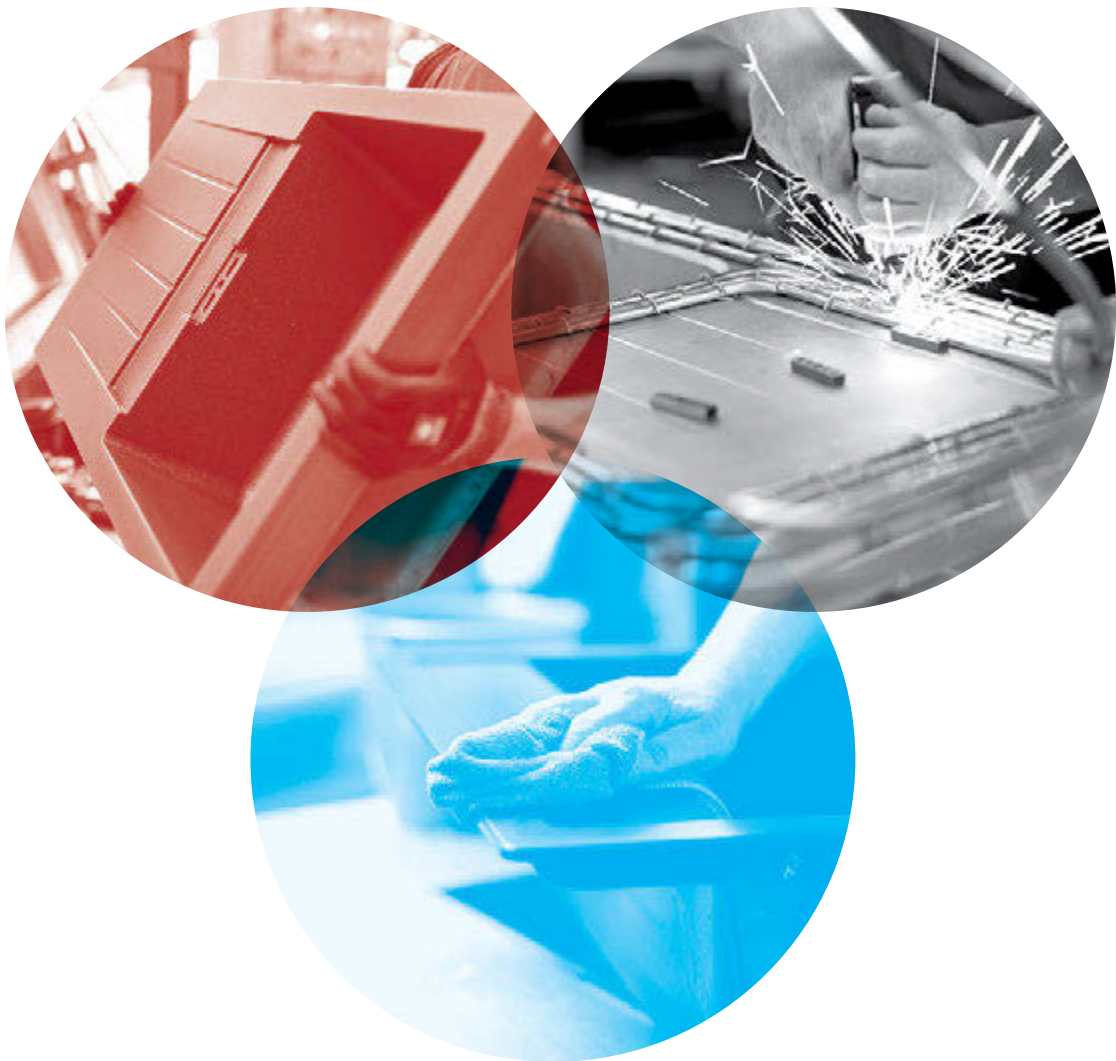

The patented surface quality of CRISTALITE<sup>+</sup>® and CRISTADUR® ensure optimum safety when handling fresh food.

### **SCHOCK DIRT-REPELLENT EFFECT**

The material's fine structure means dirt that could be a breeding ground for bacteria finds it impossible to stick to the surface.

● Headquarters, Regen

# HANDMADE IN **GERMANY**

**Dirt-repellent effect**  
The dirt simply runs off.

**Odour-free**  
Leaves the surface free of smells. LGA 5421357

**Heat-proof**  
Not temperature sensitive. DIN 13310

**Food-safe**  
Absolutely safe material.

**ProHygienic 21**  
Guaranteed, patented surface quality from SCHOCK.

**Impact-resistant**  
Tough and resistant material.  
DIN EN438-2

**Stain-resistant**  
Food stains cannot stick.  
LGA 1103

**Made to last**  
Extremely durable.  
DIN 13310

# PRODUCT BENEFITS

SCHOCK sinks are up to 80% natural quartz sand. CRISTADUR® and CRISTALITE+® have been specially developed for the demands of the kitchen. The rigours of everyday use vanish with hardly a trace.

# FORMULATED

Ever since it invented the original manufacturing formula for the quartz composite sinks in 1979, SCHOCK has been constantly taking the growing industry forward with revolutionary improvements and creating real added value for end customers. The irrepressible desire to make the best even better is also manifested in the evolution of CRISTADUR®.

With the new CRISTADUR® EXTREME manufacturing formula, SCHOCK has managed to take many of the material's great strengths up to the next level. Taking things to extremes - the granite sink material that goes by the name of CRISTADUR® EXTREME is the result of more than two years of research and development and possesses properties that really do get the absolute utmost out of the material. It is more hard-wearing than was ever thought possible, the colours gain added intensity, and the surfaces are now even easier to clean.

The production of CRISTADUR® EXTREME employs the highest-grade raw materials, including especially pure quartz sand from Germany. The casting and curing process benefits from the highly cross-linked organic binder. The result is the best CRISTADUR® ever.

## Formula, ingredients and production

**Filler:** 66% microfine quartz sand (about 0,03-0,3mm)

- Glossy Surface
- Colour Purity
- Unbeatable easy to clean

**Binder:** 15,5% high quality, highly networked acryl

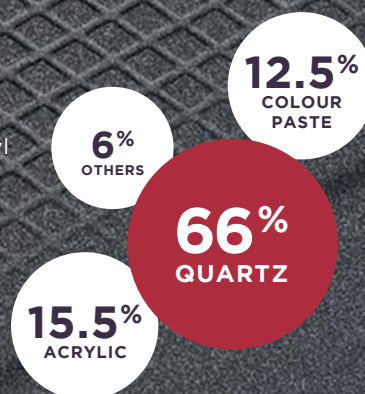

- Glossy surface and dirt repellent effect

**Other ingredients:** 12,5% colour paste

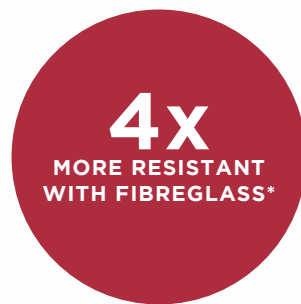

- Colour Purity

**Approximately 6% other ingredients**

- Dirt repellent effect

# CRISTADUR® EXTREME CROSS-LINKED

The sink and surrounding area is statistically the most frequently used part of the kitchen, so the rigours a sink has to withstand as people go about their daily chores are obviously especially great. But transportation to the customers is also a challenge for the packaging owing to the weight of the sink.

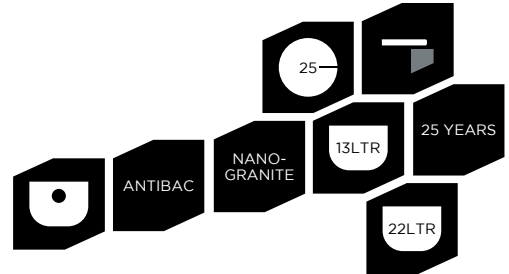

By ingraining a special fibreglass product in the bottom of the sink, SCHOCK has been able to increase the material's impact resistance several times over, with the organic fibres cross-linking the quartz casting compound even better and affording the material greater elasticity.

The effect can be compared with the difference between concrete (tough) and reinforced concrete (tough and flexible). Developed in-house by the materials research team, the technology is patent pending.

\* Impact resistance is up to 4x higher in the reinforced areas. (DIN 53453)

SIGNUS D200

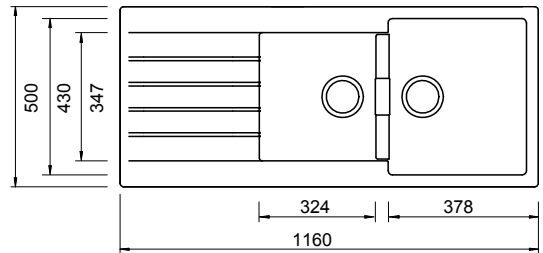

COLOUR OPTIONS

Available from  
Oct 2016

1160mm x 500mm

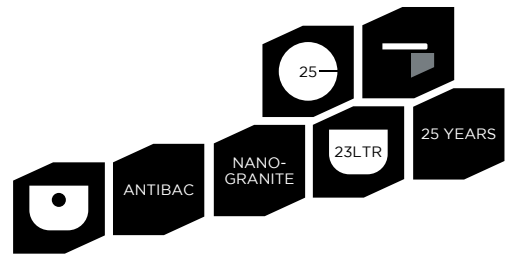

- Incredibly spacious with two large sinks and a sizable draining board.
- Designed with straight lines and appeal, this sink fits perfectly into any style of kitchen offering exceptional strength and durability.
- Pictured in Rouge.
- Taphole optional.

Optional Accessories (see page 23): (4) (19) (23) (45)

SCHOCK  
SIGNUS D100

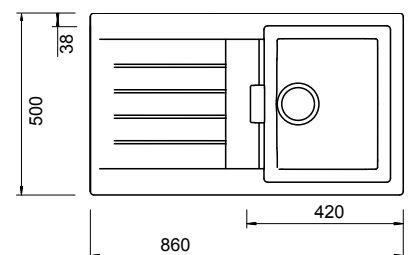

COLOUR OPTIONS

Available from  
Oct 2016

860mm x 500mm

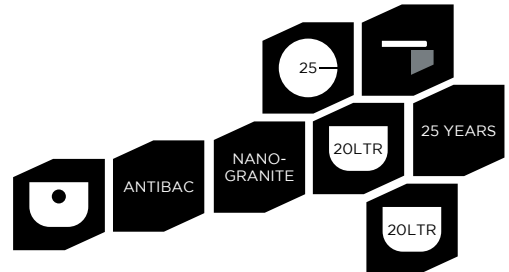

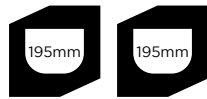

- Exceptional material properties thanks to the CRISTADUR® dirt repellent effect and Schock Antibac.
- Pictured in Vintage.
- Taphole optional.

Optional Accessories (see page 23): (4) (19) (23) (45)

**SCHOCK  
HORIZONT N200**

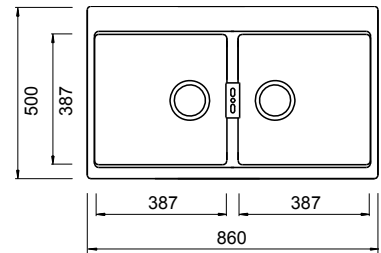

COLOUR OPTIONS

Available from  
Oct 2016

**860mm x 500mm**

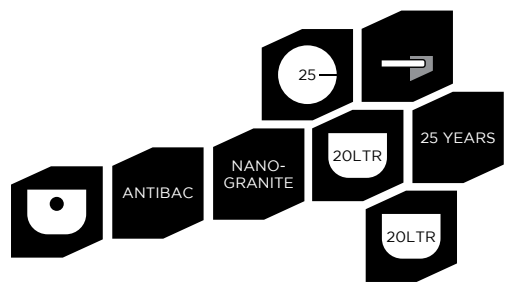

- Unique, patented designer overflow rounds off the modern look.
- The narrow design is perfectly suited to the modern kitchen suites in city and studio apartments offering exceptional strength and durability.
- Pictured in Polaris.
- Taphole optional.

Optional Accessories (see page 23): 01 19 23 37 38 45

**SCHOCK  
HORIZONT N200U**

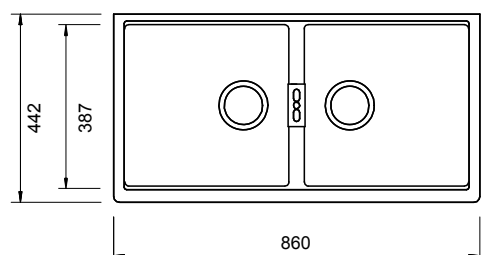

COLOUR OPTIONS

Available from  
Oct 2016

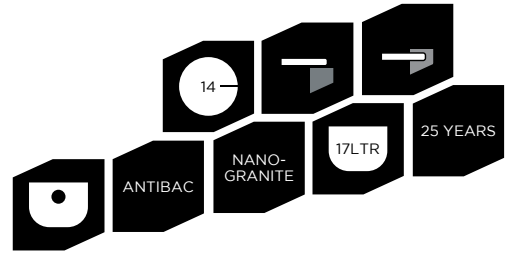

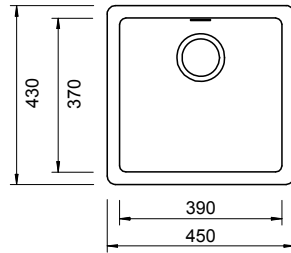

**860mm x 442mm**

- A smooth design, straight lines to suit contemporary kitchen style.
- Remarkably easy to clean - virtually impossible for dirt to stick to the surface thanks to the CRISTADUR® dirt repellent effect.
- Pictured in Bronze.

Optional Accessories (see page 23): 01 19 23 37 38 45

**SCHOCK SOHO N100S**

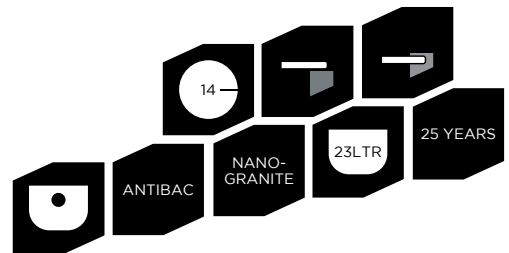

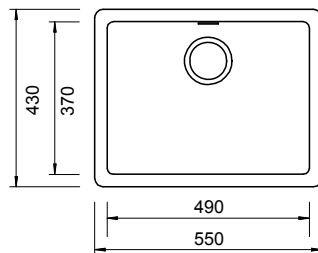

COLOUR OPTIONS

**450mm x 430mm**

Optional Accessories: (44) (01) (45)  
(see page 23)

- The smart external dimensions mean you can create a premium-quality look even in the smallest of kitchens with the undermount option.
- Stain resistant and inert. • Pictured in Bronze.

**SCHOCK SOHO N120**

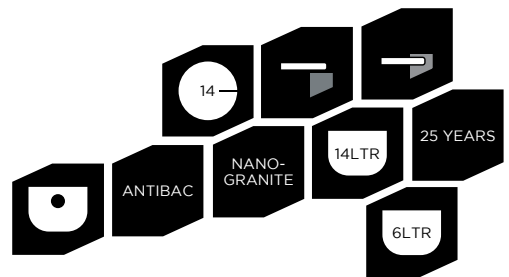

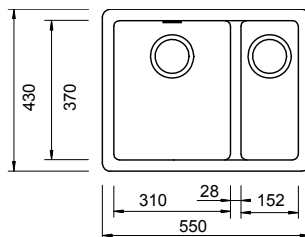

COLOUR OPTIONS

**550mm x 430mm**

Optional Accessories: (44) (01) (45)  
(see page 23)

- Remarkably easy to clean – dirt finds it virtually impossible for dirt to stick to the surface thanks to the CRISTADUR dirt repellent effect.
- Offers exceptional strength and durability. • Pictured in Stone.

**SCHOCK SOHO N150**

# CRISTALITE<sup>+</sup>®

CRISTALITE<sup>+</sup>® - a milestone in the granite sink market, the on-trend material from Schock, known around the world as the classic granite sink material. The new generation of the classic is a real winner, boasting improved attributes and an attractive range of colours.

## Formula, ingredients and production

**Filler:** 75-80% fine quartz sand (about 0,3-0,8mm) with special rounded grain shape from Germany

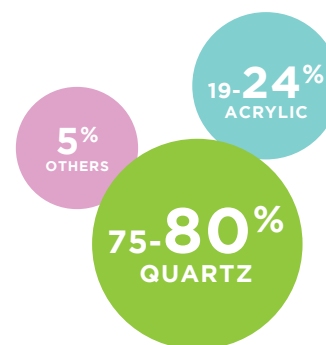

- Robustness and resistance

**Binder:** 19-24% highest quality acryl

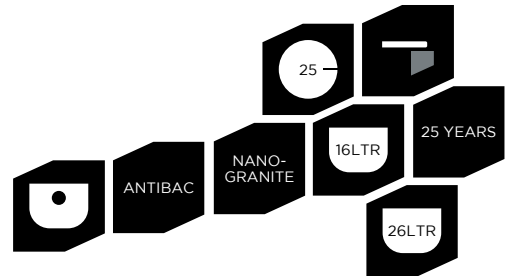

- Supreme everyday driving qualities through UV resistance and food authenticity

**Production:** use of polished, smoothed matted nickel shells back shrinkage effect produces high surface quality

- Low molding of surfaces
