

Goldline

FOR REAL COOKS

INTRODUCTION

THE GOLDLINE STORY

In 1990 I had a vision; to produce a cooktop that would cater for the growing interest in Stir Fry cooking here in Australia. This was the beginning of the Goldline story. We started with our GL3 models that combined a reinvented layout and two high powered wok burners to produce a cooktop completely different to anything that was offered on the Australian market.

Although we were in the early stages of our growth, we decided to explore the export market and so began a long association with the market in Hong Kong. As this market grew, new models were added and new clients sought us out. We began to supply a number of global European brands, keen to expand into Asia.

By 1995 we were exporting to Hong Kong, Thailand, China, Malaysia, Singapore and as far afield as Mauritius. Our efforts were recognised with awards including the Telstra Victoria Business Award, the Victorian Governor Award and the HSBC Bank Export Award in Hong Kong.

While continuing to service the export market, we are investing in a new range of cooktops designed specifically for Australian families. Cooktops that cater for the huge diversity of cooking styles. Whether it's sizzling or simmering, we want to build the best performing and most practical cooktops possible. Cooktops made for real cooks.

From humble beginnings, our cooktop range has expanded to over 20 models. We are proud of our origins and what we have achieved and the fact that our cooktops are still built right here in Australia. It has been a great journey for us and we are grateful for the support from those families who have made the considered choice of Goldline.

Happy cooking,

Wayne A'Vard
Managing Director

GOLDLINE SERIES FEATURES

Sizzle. Simmer.

More power and more control, for real cooks. The food we love to cook is all about flavours, textures and smells. They are the sensory elements that combine to make the standout recipes and memorable dishes that we have all grown to love and continue to return to our kitchens to cook for our families and friends. These powerful elements are the mouthwatering result of correct cooking methods. When applied, fresh produce will release these into a dish creating depths and layers of flavours, textures and smells, only obtainable from both the “sizzle” of a high end powerful flame and the “simmer”, of a consistent and stable low end flame. Goldline cooktops – more power, more control, for real cooks.

Features

- New Dual Control Wok burner
- Precise outer ring flame control
- Precise inner ring flame control
- Movable Wok stand/support
- New flat finger cast iron pan support

NEW 'DUAL CONTROL' SERIES

The new range of Goldline "Dual Control" cooktops are the perfect inclusion to any modern kitchen design. They have increased thermal efficiency, three sized burner integration, both inner and outer Wok flame control, and are available in a 5 burner configuration. The inclusion of a "Dual Control" Wok burner, that incorporates all of Goldline's key features, makes for an impressive and practical choice when next in the market to buy new or replace your existing cooktop. We have maintained our existing cut-out sizes, so the new "Dual Control" series will easily install back in to a narrow benchtop cut-out. A clever layout, direct flame and high powered output, all continue to deliver the functionality and control needed for all types of cooking styles.

// ...direct flame and high powered output, continue to deliver the functionality and control needed for all types of cooking styles. //

'Z' SERIES

With modern lines, beveled edging, heavy duty cast iron, movable Wok support and complementing control knobs, Goldline's new "Z" series range of cooktops are a standout inclusion to any modern kitchen. We have maintained our cut-out sizing, so the new "Z" series will drop straight into your narrow benchtop. Solid brass burner bases and rings.

A functional layout and high powered Wok design all continue to deliver functionality and direct flame heat for all cooking styles.

Dual Control Features

- Australian Made
- Dual Wok Flame Control (INNER/OUTER)
- Fully AGA (Australian Gas Association) Approved
- Available in Natural Gas or LPG
- Flame Failure Device (FFD)
- Electronic Ignition
- Beveled edged glass

Z series Features

- Australian Made
- Fully AGA (Australian Gas Association) Approved
- Available in Natural Gas or LPG
- Flame Failure Device (FFD)
- Electronic Ignition
- Beveled edged glass

4 & 5 BURNER COOKTOPS

DUAL CONTROL

60cm & 90cm cooktops

Flame control, for real cooks. Dual Wok Burner, multi flame control. Our Goldline Dual Control cooktop range steps up functionality by incorporating a dual controlled Wok burner for more user control and precise heat settings. The main outer ring heat setting can be controlled separately from the inner ring flame setting. This feature allows the burner to be used from the initial "sizzle" to the ending "simmer", without the need to ever move the pot or pan to an adjoining smaller burner.

5 BURNER 90CM GLASS (GLDUAL5BZNG-CAST)

// I love the power of high heat cooking that my Goldline cooktop gives me... and the control too. //

4 BURNER 90CM GLASS (GLDUAL4BZNG-CAST)

4 BURNER 60CM GLASS (GLDUAL704BZNG-CAST)

Key Features

- Colour: Black Glass
- Available in both Natural Gas and LPG
- Cast Iron pan support with Wok trivet

4 BURNER COOKTOPS

'Z' SERIES

60cm & 90cm cooktops

Premium components, elegant styling and safety features all make up the standard in Goldline's 'Z' series range. A perfect replacement for narrow benches. Also having built in Flame Failure Device (FFD), cast iron pan supports with movable Wok stand, beveled edged glass and solid brass burner bases and flame rings, makes Goldline's 'Z' series a standout "value vs features" choice for your next cooktop purchase.

Key Features

- Colours: Black or White
- Available in both Natural Gas and LPG
- Glass or stainless steel construction*
- Cast Iron with Wok trivet or enamel pan supports

**// We love the convenience
of fast cooking meals
with Goldline. //**

4 BURNER 90CM GLASS (GL4BZNG-CAST)

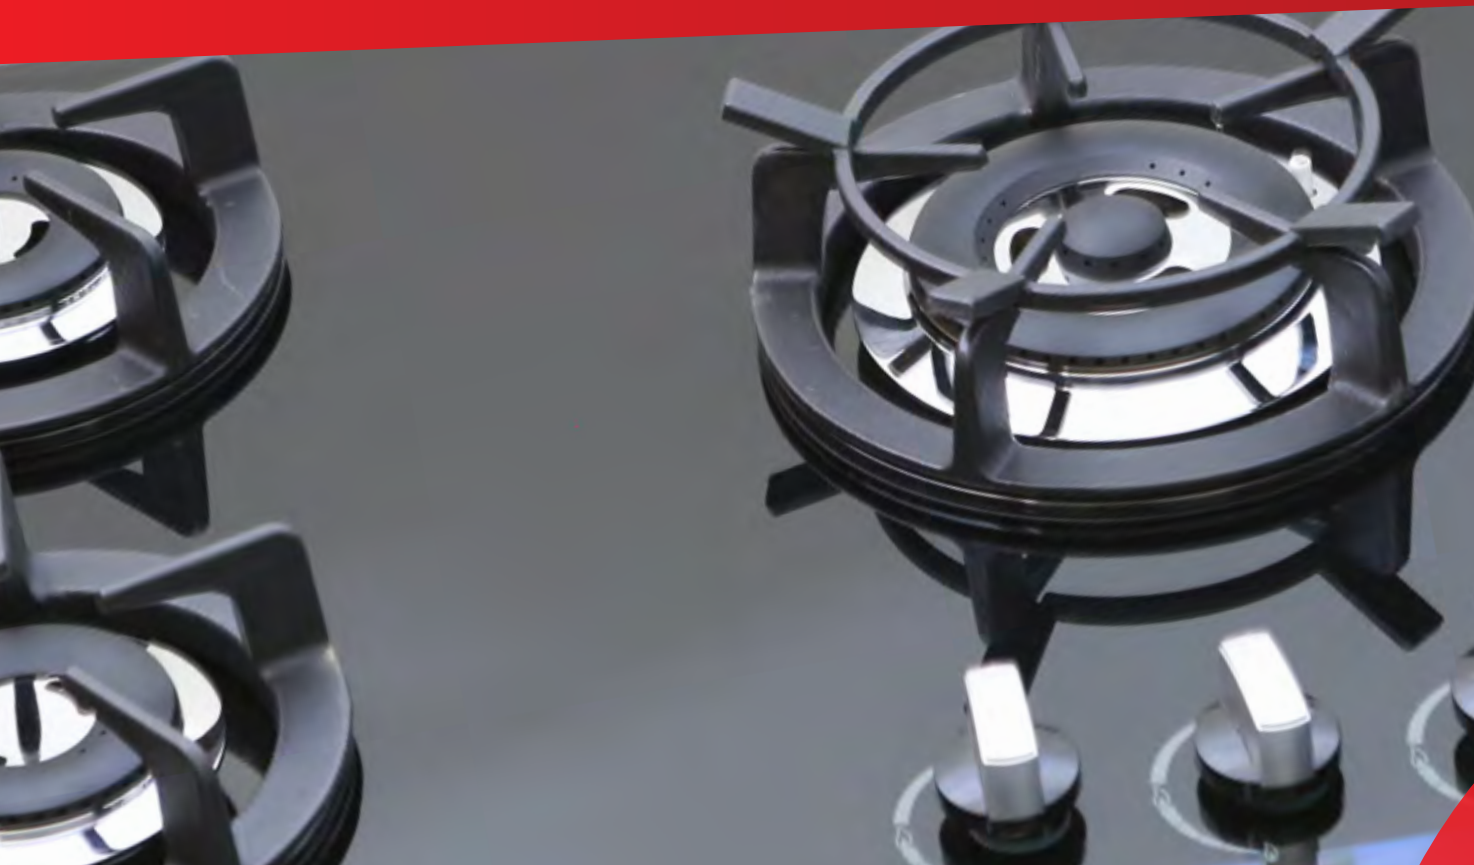

4 BURNER 90CM STAINLESS STEEL (GL4SSZNG-CAST)

4 BURNER 60CM GLASS (GL704WZNG-CAST)

1, 2 & 3 BURNER COOKTOPS

'Z' SERIES

50cm, 60cm, 75cm & 85cm cooktops
