

 **GEBERIT**

Designed in Switzerland. At home in Australia.

**GEBERIT CONCEALED CISTERN
TECHNOLOGY**

European style in Australia

Geberit's innovative button designs and concealed cistern technology has allowed users throughout the world to experience the luxury of well-designed modern bathrooms.

With experience spanning more than 50 years Geberit has developed an eye for premium button designs and precision Swiss manufacturing.

This has led to the installation of more than 60 million concealed cisterns worldwide.

Precision Swiss Engineering

Outstanding product quality is only achieved with a team of Geberit engineers and designers who have a passion for innovative function and design.

Precision Swiss engineering and outstanding manufacturing combine to deliver peace of mind behind the wall and design freedom at the front of the wall.

To ensure its carbon footprint is responsible, Geberit puts the environment at the heart of its business by focusing on sustainable sourcing, manufacturing, logistics and product design that deliver a harmonious synergy with nature.

Design Meets Functionality

Modern bathrooms reflect simplicity and style. A Geberit concealed cistern creates options for design finishes including the installation of a wall hung pan. This allows for seamless wall and floor tiling creating the impression of more space.

Leading European designer, Christoph Behling has a history of creating button designs for Geberit's Sigma range.

Sigma

Inwall concealed cisterns

Suitable for traditional inwall installations allowing design freedom to create a lifestyle bathroom. All Sigma buttons are compatible with Sigma concealed cisterns.

Kappa

Under counter concealed cisterns

Giving smaller bathrooms the appearance of space with a choice of flexible low height installation options, including under counter, vanity or window. All Kappa buttons are compatible with Kappa under counter concealed cisterns.

Remote Concealed cisterns

Allowing for complete design freedom to create a modern bathroom by placing the button up to 2 metres from the concealed cistern. Suitable for in ceiling, undercounter, in vanity, induct, and inwall installations.

Sigma

Inwall concealed cisterns

With a range of button designs and an extensive choice of modern finishes, the Sigma range creates a number of stylish possibilities to deliver a lifestyle bathroom.

Sigma60.

A unique range of premium finishes are highlighted in a button design that sits flush to the wall to create a subtle impact to a contemporary bathroom.
