MIXERS, TAPWARE,
SHOWERS & ACCESSORIES

BEAUTIFUL, QUALITY tapware

Cali mixers, tapware, showers & accessories are available in various styles and finishes.

Our range of colours are applied using different technologies to ensure a finish that is both beautiful and long-lasting.

SOLID BRASS CONSTRUCTION

Made from solid brass, our mixers and tapware resist corrosion and bacteria, and are designed to withstand high water temperatures.

Polished Chrome

Polished chrome endures as the number one finish for its proven durability and versatility for a wide range of bathroom styles.

Matte Black

Premium electroplated coating gives our matte black range consistent colour and is a popular choice for adding contrast to bathroom designs.

Brushed Nickel

Brushed nickel has a similar look to unpolished stainless steel with a warm grey finish that can add softness to your colour palette.

Brushed Gun Metal

The dark, brushed tone of our gun metal finish is ideal for those seeking an industrial, evocative feel for their bathroom.

Brushed Urban Brass

With a lightly brushed finish, urban brass evokes the quality and durability of brass while giving your bathroom a modern stylish accent colour.

ACCESSORIES

EXTENSIVE WARRANTIES*

We are committed to producing high quality, durable products that will stand the test of time. We are proud to offer extensive warranties on our components to give you peace of mind.

*Conditions apply. Contact us for full warranty terms and conditions.

COLOURING PROCESS

Physical Vapour Deposition (PVD)

PVD is an advanced coating process where the colour is fused to the brass on a molecular level. Metals like titanium and zirconium are heated in a vacuum chamber causing them to evaporate.

With kinetic energy the ions move onto the surface where they condense and fuse to make a uniform coating. This results in a finish that is very resistant to scratches and won't discolour over time.

Used for: Brushed Nickel, Gun Metal, Urban Brass

Electroplating

Electroplating involves applying a liquid metal coating to the surface through an electro-deposition process. Several layers are used and are bonded through a living chemical connection to the surface. This ensures continued adhesion and greater durability compared to powder coating where only a single layer is applied. Electroplated tapware requires extra care when cleaning to ensure that it isn't scratched by harsh chemicals or abrasive cleaning cloths.

Used for: Chrome, Matte Black

PEX SPLIT-RESISTANT HOSES

Each Cali mixer comes with split-resistant PEX hoses. Cross-linked polyethylene (PEX) hoses ensure silent water flow as they expand under pressure and resist splits or cracks. The PE material prevents corrosion, ensuring longevity and durability.

CLEANING & CARE

- Regularly clean with mild soapy water using a microfibre cloth.
- In highly polluted or coastal locations, we recommend cleaning 2-3 times per week.
- Do not use harsh detergents, bleach, cream cleaners or citrus based cleaners. These substances are abrasive and will damage the surface.
- Do not use undue pressure and wipe in one direction only.

WATERMARK CERTIFIED

Cali products are manufactured to comply with Australian regulations and plumbing codes and are WaterMark certified.

WATER EFFICIENCY

WELS is Australia's water efficiency labelling scheme and is designed to help you make informed choices about the water efficiency of the products you are buying.

The WELS label shows two key pieces of information:

- The overall star rating
- The flow in litres per minute for taps and showers; or litres per flush for toilets and urinals.

The majority of our mixers are WELS 5-Star or 6-Star rated to help you get the most from water efficiency both in the home and in commercial buildings. All Cali showers achieve a 3-Star rating, the maximum a shower can receive under the scheme. Some products, such as wall mixers, are not required to have a WELS rating as they are not sold with the spout that controls water flow.

Cali

CHROME

- Polished chrome finish
- Made from solid brass
- High quality European cartridges
- PEX split-resistant flexible hoses
