BATHROOM • KITCHEN • LAUNDRY

CHOICE SUPPLIES

At Choice, we are proud to have helped thousands of people create their dream kitchens, bathrooms & laundries. From baths, taps, ovens, hot water services and everything in between, our showroom promotes market leading brands you can trust, at affordable prices. There is no need to sacrifice quality for price.

Being 100% Australian owned & run Since 2006, we are very particular when picking the right suppliers to make sure you receive the best products and service, both now and in the future.

We are always updating our showroom for you to see the latest in technology, trend, and functional features for your home.

Everything you select from Choice comes with supplier backed warranties, allowing you to be at ease with all your selections.

Come in today and see for yourself!

Our staff have years of experience & will take all the stress out of the selection. Their experience and knowledge ensures a smooth process and sound advice.

Curating the best in quality and design.

FISHER & PAYKEL

Fisher & Paykel has been designing products since 1934 and has grown into a global company with products sold in more than 50 countries around the world.

CURIOSITY: THE FOUNDATION OF EXCELLENCE

Our design heritage is founded on a pioneering spirit and a culture of curiosity. We've built our legacy with a future focus that still stays true to the fundamentals of sustainable design. We believe technology should always begin with the people who use it. This has seen us challenge conventional appliance design to create products that deliver to genuine human need.

Our ongoing research and development is backed by a culture of open innovation, collaboration and curiosity – one that seeks to uncover insights and ideas that connect with our customers and respect our planet.

THE SOCIAL KITCHEN - OUR DESIGN PHILOSOPHY

The idea of the Social Kitchen underpins our design philosophy in developing flexible appliances that can be distributed throughout your kitchen and tailored to your individual lifestyle and needs. It is both a concept and a lived experience that connects people with food and design. The Social Kitchen draws on a deep understanding of patterns of use. The kitchen is no longer just a place where food is made. It is where we meet to talk about our day, where homework is done, where we engage and interact as families and friends.

Considered kitchens respect and reflect these patterns of use in their layout and in appliances that provide flexibility. That flexibility allows us to shift between the different requirements we have of our kitchens. By understanding the way kitchens are used we know what our customers are looking for in their perfect kitchen. They are looking for choices, for the freedom to create unencumbered by the restrictions of their appliance.

DESIGN COLLECTION

Belling brings clever and innovative ideas to cooking appliances, range cookers, freestanding, rangehoods and built in ovens

"Belling has been revolutionising kitchen appliances for over a century to become one of Australia's favorite home brands. Our rich 100-year history has seen the launch of a number of world firsts, always meeting the highest of demands in terms of flawless design, innovation and premium quality.

Over the years, Belling products have always stayed ahead of the game, constantly updating to remain at the forefront of innovations, but one thing has always remained the same: our dedication to quality, choice, reliability and service. Our Founder, Charles Belling, regularly used the catchphrase "You can't beat a Belling" and this statement remains true in 2021.

Over a century later, we've stayed true to Charles' vision for the company, focusing on producing innovative, reliable and well-made products and making sure Belling appliances are the starting point for unforgettable culinary experiences."
